

COVID-19 FAQs

Are there any changes in SACAC's admission process to the flagship courses due to Covid-19?

Our admission process is now entirely digital – interviews are being conducted through video conferencing (via Skype or Zoom) and all submissions are happening via email. Candidates are not required to send anything by post.

Will the Class of 2020-21 commence on time?

It is our hope and goal to commence classes from August 2020, as per schedule. However, our top priority is the safety and well-being of our students, many of whom travel to Delhi from other states. Therefore, if things do not improve by the scheduled time, and traveling remains an issue, the commencement date will be delayed.

We will have a clearer understanding of the same in the coming weeks and will update further developments, if any, here as well as through social media, in addition to informing those onboard.

What measures have been taken by the institute to ensure distancing and safety, for when the campus opens?

The 2.5-acre space; large, airy classrooms, and small-batch sizes together make for a natural safety mechanism for our students, faculty, and team. In addition, we will follow all mandates, directives and good practices advised, to ensure everyone's wellbeing.

When will the weekend, short-term batches begin at the campus again?

Our weekend, short-term courses at the campus, too, are scheduled to begin in August

How are the current batches coping up with their studies?

In mid-March, we decided to transition to virtual classrooms for our current programmes. We have been conducting lessons through video conferencing. It is our endeavor that the learning continues.

Classroom sessions will resume only in August.

Is there a way I can connect with the SACAC Team/Faculty virtually?

We always look forward to conversations with interested candidates. We would like to help them make informed decisions. You can write to us at admissions@sac.ac.in with a request to connect, and we will reach out to you at the earliest through video or telephonic calls.

Are there any other resources where I can learn more about SACAC and how it will benefit me?

Our website carries all the information you need, whether it be about our faculty, campus, curriculum, and more. You can also join us on our social media pages to get regular updates on what's happening at SACAC.
